Objective

Results-driven Full Stack Developer with 2+ years of experience designing, developing, and maintaining scalable web applications and Shopify e-commerce solutions. Experienced in React.js, Next.js, Angular, TypeScript, Node.js, Express.js, MongoDB, Shopify Liquid, AWS, and RESTful API development. Skilled in building responsive user interfaces, backend services, authentication systems, reusable components, and high-performance applications. Passionate about writing clean, maintainable code and delivering business-focused solutions.

Experience

- **Adab Digital** April 2025 - Present
  Full Stack developer
  Experienced Full Stack Developer with a strong background in designing, developing, and maintaining high-performance web applications using Angular, Next.js, React.js, Node.js, Express.js, and MongoDB. Skilled in building scalable front-end UIs, robust backend APIs, and optimizing databases for maximum efficiency.

  Extensive experience in Shopify development, with hands-on experience in building and customizing Shopify stores—several of which are live and actively maintained. Adept at working with Liquid templates, Shopify CLI, metafields, and custom sections, ensuring seamless user experiences and high-performing storefronts. Strong understanding of Clean Architecture principles.

  Key Skills
  Frontend: React.js, Next.js, Angular, JavaScript (ES6+), HTML5, CSS3, Bootstrap
  Backend: Node.js, Express.js, RESTful APIs
  Database: MongoDB, Mongoose
  Shopify Development: Liquid, JSON templates, Shopify CLI, metafields, theme customization, app integration
  Authentication & Security: JWT, OAuth, bcrypt
  Architecture & Best Practices: Clean Architecture, MVC, modular code design
  Version Control: Git, GitHub
  Testing & Debugging: Postman

- **Codetek Software Solutions** June 2024 - April 2025
  Full stack developer
  Experienced Full Stack Developer with a strong background in designing, developing, and maintaining high-performance web applications using React.js, Node.js, Express.js, and MongoDB. Adept at building scalable frontend UIs, robust backend APIs, and optimizing databases for high efficiency. Passionate about writing clean, maintainable, and efficient code while following best practices.

Skills

- Frontend: React.js, Next.js, Angular, php, HTML5, CSS3, java,JavaScript ES6+, Bootstrap
- Shopify: Liquid, Shopify CLI, Metafields, Theme Customization
- Backend: Node.js, Express.js, RESTful APIs, python
- Database: MongoDB, Mongoose
- Testing & Debugging: Postman, Manual Testing
- Other: Nest.js, Typescript, MVC, Git, GitHub, Clean Architecture principles
- Azure and AWS
- Webflow, Wordpress

Projects

- **Shopify Development**
  Designed and developed high-performing Shopify stores with custom Liquid sections, metafields, and reusable components to ensure scalable and maintainable architecture. Implemented responsive design, optimized store speed, and enhanced user experience across multiple devices.

Projects:

Aptronix:
Technologies: Shopify Liquid, JavaScript, HTML, CSS
Developed and maintained production Shopify storefront. Built custom sections and reusable theme components. Improved product filtering and responsive design. Enhanced storefront performance and customer experience.

Bake Beauty:
Technologies: Shopify Liquid, HTML, CSS, JavaScript
Developed custom Shopify pages and dynamic product layouts. Customized collection and product pages. Improved SEO and website performance.
Built reusable Shopify sections.

G-1 Nutrition:
Technologies: Shopify Liquid, Shopify CLI
Customized Shopify themes and templates.
Built reusable components using Liquid.
Implemented metafields for dynamic content.

Results:
Delivered live, production-ready Shopify stores with clean, maintainable code, improved performance metrics, and efficient content workflows.

- Full Stack Development
  Built and maintained full-stack web applications using Angular, Next.js, React.js, Node.js, Express.js, and MongoDB, following Clean Architecture principles for modularity and scalability. Developed RESTful APIs, integrated authentication (JWT/OAuth), and optimized database queries for performance.

  Projects:
  Somany Ceramics:
  Tech Stack: Vue.js 3, Laravel 11, PHP, AWS (RDS, S3, CloudFront)
  Developed a high-performance B2B dealer portal and order management system for Somany Ceramics, enabling dealers and distributors to access real-time inventory, place orders, track shipments, and manage invoices through a centralized enterprise platform.

  Results:
  Achieved consistent deployment efficiency, reduced code complexity, and improved data processing performance across projects.
